ESH Coordinators and Quality Representatives Meeting
September 27, 2006

Patricia Williams
Safety & Health Services Division Manager

Safety Topic – Choking

"First Aid for Choking" posters, provided by the State of NYS Department of Health are available by contacting Maria Beckman on ext. 5483 or email beckman@bnl.gov. The signs of a person in distress from choking and actions to be taken are clearly shown on the poster.

Review of Revised ESSH Policy

This document is a statement of BNL's ESSH policy. BNL is a world leader in scientific research and strives to demonstrate excellence in protecting people, property and the environment. I expect every employee, contractor, and guest to take personal responsibility for adhering to the following principles:

- **Environment:** We protect the environment, conserve resources, and prevent pollution.
- **Safety:** We maintain a safe workplace and we plan our work and perform it safely. We take responsibility for the safety of ourselves, coworkers and guests.
- **Security:** We protect people, property, information, computing systems, and facilities.
- **Health:** We protect human health within our boundaries and in the surrounding community.
- **Compliance:** We achieve and maintain compliance with applicable ESSH requirements.
- **Community:** We maintain open, proactive and constructive relationships with our employees, neighbors, regulators, DOE, and our other stakeholders.
- **Continual Improvement:** We continually improve ESSH performance.

In addition to my annual review of BNL's progress on ESSH goals and adherence to this policy, I invite all interested parties to provide me with input on our performance relative to this policy, and the policy itself. 				- S. Aronson, September 6, 2006
